

behavior skill toolkit

SOCIAL SKILLS: BEING A GOOD SPORT

TIER 2/TIER 3
BEHAVIOR INTERVENTION

You know those students who struggle to be a good sport because they are missing the skill of good sportsmanship?

This is the support for them!

It works by developing two things:

Skill Acquisition = Students learning and understanding skills

Skill Fluency = Students actually using the skills consistently at the right time and place

how do I use this?

- **Example 1:** A student is having some struggles, and you think early intervention might help them get back on track.
- **Example 2:** A student needs more frequent intervention and support, so you use these activities for 15-minute sessions 2-5 days/week.
- **Example 3:** You think a student would be a great candidate for Check In/Check Out or Self-Monitoring, but you want to make sure they really understand the skill(s) first.
- **Example 4:** When a student is sent to the office, is in in-school suspension, etc., and you want to provide a proactive response. Identify the skill(s) that would have helped them meet expectations and choose one or more activities for that skill.

part 1: teach the skill

Teach and model the skill using one of the two instructional tools included:

- Definition and How-To Page (developed with 2-5 in mind)
- Social Narrative (developed with K-2 in mind)

part 1: teach the skill

Check for understanding and begin processing and reflecting on the skill through activities like:

- Roll and Respond Prompts
- Example Scenarios and Discussion Questions
- Anchor Chart

part 2: practice and rehearse the skill

Give students the opportunity to practice and rehearse the skill with application-based worksheets and task cards.

Name: _____

Is a Good Sport

Think of a time when someone wins or loses a game. Draw a three-part comic showing what happens and how the character chooses to be a good sport.

--	--	--

A yellow pencil is shown pointing to the first panel of the comic.

The bin contains several task cards and worksheets. One worksheet is titled "How can you be a good sport..." and has two sections: "How can you be a good sport... when you win?" and "How can you be a good sport... when you lose?". Another task card says "Finish this sentence: 'Being a good sport is helpful when...'" with a cartoon character. A third task card says "Show me what it looks like to be a good sport when you win first place in the science fair".

Worksheet: How can you be a good sport...
Name: _____
How can you be a good sport... when you win?
How can you be a good sport... when you lose?

Task Card: Finish this sentence: "Being a good sport is helpful when..."

Task Card: Show me what it looks like to be a good sport when you win first place in the science fair

part 3: reinforce and generalize the skill

Generalize the skill through an action plan, and reinforce the skill through:

- Student Desk Reminder
- Faculty/Staff Lanyard Card
- Positive Reinforcement and/or Data Tracking Pages

Behavior Data Check

	First Block
Being a Good Sport	☺
	☹
	☹

☺ = Successful

Name: _____

I can be a good sport by playing fair and being kind.

When I fill in _____ boxes, I earn _____.

questions & answers

Who is this for?

- These activities are for students whose behavior concerns seem to be due to them lacking key social, emotional, and behavioral skills.
- They are *not* the best fit for students whose behavior struggles are due more primarily to needing connection, competence and control, or motivation for change.

How can this be tier 2 OR tier 3?

If you're using this resource in a small group, or individually very short-term, then this is a tier 2 intervention.

If you're using this resource for more long-term work with an individual, or in addition to one more other interventions, it's likely more of a tier 3 intervention.

Hi, I'm Sara! At The Responsive Counselor, we create resources for school counselors, child therapists, and teachers that improve social emotional learning and help students be their best selves.

Our focus is creating resources that are effective (using research-based best practices) and engaging (through collaborative learning and relevant scenarios) for students.

experience

I'm a former school counselor from a large southeastern school district with a wonderfully diverse group of students. I created and implemented a data-based comprehensive school counseling program while helping classroom teachers and administrators implement schoolwide SEL and restorative practices. Now, I share my ideas and resources to reach students and help educators across the world!
